

WARMING TRENDS® Live Burn Displays

Seeing is believing...

Counter Top Display

Counter Top Displays includes a 17" tall triangle brushed aluminum base which holds a removable CFB60 CROSSFIRE Brass Burner on a 12" plate. The unit is ready to connect to a 1lb propane tank. This display is great for small spaces and the removable demo burner is the perfect portable sales tool.

Floor Display

The Floor Display is 30" tall and 18" square. The display includes a hollow metal frame, choice of two slide-in marketing panels (two are pre-selected), a plate with a mounted key valve, and a CFB60 CROSSFIRE Brass Burner. The unit is ready to connect to a 1lb propane tank (and can be modified to connect up to a 20 lb tank.) Perfect for a showroom display.

The top reason consumers prefer to shop in-store versus online is to see, feel and experience the product in person.*

Let your customers experience the performance of a Warming Trends CROSSFIRE Brass Burner.
