

## CNC OPERATOR – LOCAL DENVER, CO CANDIDATES ONLY

### OUR COMPANY

Warming Trends designs, manufactures, and distributes superior outdoor gas fire features. Our main office is in Englewood, Colorado, about 20 minutes south of downtown Denver. With patented, competitively advantaged and United States made products, we have created a company that has proven itself to be an innovative industry leader. We appreciate every opportunity we are given to contribute to our customers' outdoor living environment and lifestyle.

Visit our website at <http://www.warming-trends.com> to learn more.

Along with our product, our employees seek to delight our customers and help drive our successful brand.

As Warming Trends continues to expand, the Company is committed to investing in our team members, as we seek members whose performance can match that of our CROSSFIRE® burner systems.

Warming Trends is searching for a talented and experienced CNC machine operator to oversee our computer numeric controlled (CNC) machines. You will be responsible for ensuring our company produces quality parts and tools specific to engineering drawings and client standards.

As the machine operator, the successful candidate will be a highly skilled professional, with excellent attention to detail and mechanical aptitude. To excel in this role, you will also have to possess in-depth knowledge of the latest equipment and techniques emerging in the industry.

## JOB RESPONSIBILITIES

- Set-up and manage CNC machines to perform different jobs including drilling, grinding and milling.
- Translate engineering drawings and requirements into dimensions for production.
- Ensure the CNC machine operates in accordance with the guidelines of the company.
- Oversee the machines while they execute the tasks and make the necessary changes to produce improved results.
- Check machinery daily to guarantee functionality.
- Record all machine actions by completing production and quality logs.
- Communicate logistics issues that arise in the process of creating a part.
- Ensure that results of machining process align with client expectations.
- Conduct regular CNC machine assessments.

## REQUIREMENTS

- High school diploma or equivalent qualification required.
- Certificate or diploma in engineering is an advantage.
- 3 years' experience as a CNC machine operator.
- Ability to translate mechanical documents and engineering drawings.
- Great attention to detail with a goal-driven attitude.
- Strong comprehension and analytical abilities.
- Good computer and mathematical skills.
