

# INTRODUCING THE WATERSTOP®

## INDUSTRY-WIDE STRUGGLE ONLY ONE SOLUTION

A patent-pending fitting, the WATERSTOP® protects electronics and valve systems from water AND debris while delivering outstanding flame performance.

The WATERSTOP also keeps the gas line supply line dry and continues to allow the CROSSFIRE® brass burner to easily self-purge any water in the manifold when lit.

# WARMING TRENDS®

SUPERIOR FIRE FEATURE SYSTEMS

## PERFORMANCE

We deliver the tallest, brightest, most natural flame while consuming less fuel. Regardless of the fuel supply, a Warming Trends system will provide the best flame in the industry.

## USA MADE

We design, manufacture, and build all Warming Trends' products in our Colorado facilities resulting in outstanding quality and reliable lead times.

## LIFETIME WARRANTY

Our Patented CROSSFIRE® burners are rust and corrosion resistant and backed by a lifetime warranty.

## GREEN

All of our brass burners and aluminum plates are sustainable, recyclable, and US-sourced resulting in a smaller carbon footprint. Environmentally aware, we engineered our patented burners to be the most fuel-efficient on the market.

DON'T SETTLE FOR **LESS.**

Competitor Burner with 180K BTUs

CFB180 Original CROSSFIRE® Brass Burner

## BURNER SYSTEMS

Purchase just a burner or an entire kit - including plate or pan, ignition system, flex line kit, and key valve.

## CUSTOM DESIGNS

Creative solutions expertly designed to fit the exact specifications of your custom project.

## READY-TO-FINISH KITS

Simple and fast fire feature construction. Delivered ready to install and complete with media and veneer.

## UNIVERSAL PAVER KITS

Convert your paver kit to gas. Standard size ranges and bespoke kits designed to fit with many popular paver block kits.

## ACCESSORIES & ELECTRONICS

Steel log sets, ceramic logs, glass and stone media, electronic ignitions, and aluminum covers.
