

INTRODUCING THE **MERCURY IGNITION SYSTEM**

240,000 BTUs. NO Electricity Required.
Warming Trends' Definition of Innovation.

RELIABLE LEAD TIMES | MADE IN THE U.S.A. | 100% BRASS | LIFETIME WARRANTY

Visit us online at Warming-Trends.com for more information and pricing or call **303-346-2224** to speak with one of our Flame Specialists today.

MERCURY IGNITION

The **Mercury Ignition™** provides a layer of safety in the event a burner's flame is unexpectedly extinguished. This innovative new design provides a quick, automatic shutoff of gas flow and an easy reset to reignite the flame when ready to address building and safety code requirements, as well as personal safety preferences.

IGNITION PILOT ASSEMBLY

- **No Electricity Required - Battery Operated**
- Delivers unmatched BTU output of 240 BTUs compared to only 140 BTUs from any competitor
- Provides superior gas line protection from water and debris when coupled with the **WATERSTOP™** fitting
- 3 year Residential and 1 year Commercial Warranty

Warming Trends is the only US-based manufacturer of superior fire features, offering the patented **CROSSFIRE®** brass burner. As a vertically integrated company, we manufacture all our prime products in our Colorado facilities, resulting in outstanding quality and industry-best lead times. We offer hundreds of standard burners and endless custom options to fit your project(s). Our burners are built to last a lifetime and are backed by a lifetime guarantee.
